PROFESSIONAL SUMMARY

Account manager with more than five years in business development, lead generation, and account support across fintech and B2B. Most recently a Junior Account Executive at Revolut and a Business Development Representative at PayPal, after leading a lead-generation team at IDG Direct. I run client meetings, keep Customer Relationship Management (CRM) records clean, help onboard new accounts, and stay on the phone and email until the follow-up is done. I also build software when a SaaS team needs it.

EXPERIENCE

Junior Account Executive

Revolut

Galway, Ireland | 09/2025 - 03/2026

- Worked with senior Account Managers to set up and run client meetings across a B2B fintech book of accounts.
- Supported day-to-day account management: follow-ups, stakeholder coordination, and keeping the next conversation moving.
- Kept Customer Relationship Management (CRM) records accurate so account history and pipeline stayed visible to the team.
- Helped onboard new clients and sat through product training so I could answer account questions without handing every query up.

Business Development Representative

PayPal

Galway, Ireland | 03/2024 - 09/2025

- Owned outbound pipeline: cold calling, email outreach, and networking events aimed at prospective B2B clients.
- Backed the account management team by taking client inquiries on phone and email and closing the loop quickly.
- Built working relationships with prospects in a high-volume fintech environment where follow-through is the job.
- Handled customer questions with clear product knowledge instead of bouncing people around.

Lead Generation Team Lead

IDG Direct

Galway, Ireland | 02/2021 - 01/2022

- Ran daily operations for a lead generation team: priorities, task assignment, and keeping the floor moving.
- Coached and trained new hires on outreach quality, not just activity volume.
- Tracked performance against company targets and stepped in when a number was slipping.

Lead Generator

IDG Direct

Galway, Ireland | 01/2020 - 02/2021

- Generated leads through targeted outreach and direct, clear communication.
- Researched prospective accounts on online tools and databases before the call.

SKILLS

Account management and commercial

Account management, Account executive, Business development, Lead generation, Client onboarding, Customer Relationship Management (CRM), Pipeline management, B2B sales, Fintech, Cold outreach, Relationship management, Market research, Stakeholder coordination

Programming

TypeScript, JavaScript, Python, C, SQL, React, Node.js, FastAPI, Git.

SELECTED PROJECTS

AuditPack - live compliance SaaS

Personal project | <https://getauditpack.com> | TypeScript, React, Node.js, Stripe

- Shipped a live B2B product for ISO documentation: interface, REST API, authentication, payments, and deploys.

Mimir - self-hosted GPU workspace

Personal project | Python, FastAPI, AWS EC2, Docker

- Built the control plane for an AWS GPU box, with cost tracking, a dashboard, a CLI, and an OpenAI-compatible API for Cursor.

EDUCATION

Bachelor of Science in Computer Science

IU University of Applied Sciences, Germany | Expected 09/2028

High School Diploma

St Enda's Community School, Limerick, Ireland | 2016
